Celebrating World LPG Day

This June has been eventful for LPGSA, starting with the celebration of World LPG Day from 01 June to 07 June 2024. The LPGSA team, board and industry stakeholders engaged communities through informative radio interviews and social media engagement. Highlighting the significance of World LPG Day, they addressed common misconceptions about using gas at home, and answered listeners' questions in engaging and interactive radio, tv and podcast sessions.

Winter Campaign: A Warm Welcome to CADAC

We are thrilled to announce the addition of CADAC sponsorship to the ongoing Winter Campaign. Since the launch of the partnership on the 7th of June 2024, it has been providing valuable tips and resources for the safe and efficient use of LPG for heating and cooking during winter. As part of the campaign, our social media followers have the chance to win fantastic prizes, including top-of-the-line CADAC appliances.

A big thank you to CADAC for your generous support in ensuring a safe, warm and delicious winter for everyone!

SPECIAL THANKS TO TOTAL

Special thanks to TOTAL for sponsoring the appliances Give-Away for the 2023/2024 LPG Promotion and Safety Awareness campaign. Their support has converted numerous households across South Africa to use LPG. We look forward to more opportunities for conversion and growth within the LPG Industry.

WE APPRECIATE OUR PARTNERS AND VOLUNTEERS

In appreciation of your invaluable contribution and support to our LPG Safety Promotion and Safety Awareness campaign 2023/2024.

GET INVOLVED

WHAT TO EXPECT IN JULY

In July, LPGSA will kick off Savings Month with a series of high-impact activities. Keep an eye on our social media for upcoming content and discover ways to save during this cold season using LPG. To do so, click on our LinkTree: <https://tr.ee/vtVAOhVt-7>

Are you eager to learn more about promoting LPG awareness and advocating for its benefits? Join us in our mission to drive positive change and innovation in the LPG industry.
